DETAILED ACTION

Claims 1-5, 25-31, 39-42, 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over US patent #5,678,015 (Goh). Rationales for the rejection continue to be as set forth in par. 3 of the last Office action.

Claims 1, 2, 5, and 50 are rejected under 35 U.S.C. 102(a) as being anticipated by US patent #5,880,733 (Horvitz et al). Rationales for the rejection continue to be as set forth in par. 5 of the last Office action

Response to Arguments

Applicant's arguments filed 8/15/02 have been fully considered but they are not persuasive.

REMARKS:

In response to the argument that neither Goh nor Horvitz teach the claimed limitations (responsive to a user input event) displaying "the first information being related to the event" and "the second information being related to the event". The claimed limitation is disclosed in both references. In Goh, responsive to user's selecting "cube/formation" input event, the cube of figure 5 is displayed. The cube comprises a first window and a second window. Each of the windows displays information (desktop icons) related to the user input event (figure 5; col. 6, lines 14-19). Similarly, Horvitz's three dimensional workspace windows are displayed in response to user activation input event.

Conclusion

The prior art made of record on form PTO-892 and not relied upon are considered pertinent to applicants' disclosure. Applicants are required under 37 CFR 1.111(c) to consider these references fully when responding to this action.
